Canadian Music - Artists - Bands EPK:

Brendon John sturgeon

BAND STORY

"

A 43 year old singer/songwriter/musician from Miramichi NB. First time doing a solo CD. I also play bass for One More Addiction and we are working on our debut CD " Bad Habits".

I get to explore more influences doing my solo project which I have titled " The Journey". This CD is an expression of my own personal journey in life , the pain, the joys, the lessons learned, the letting go and the moving on with my life. It also allows me to play guitar (my first love, and Im self taught) and to sing (which is kinda new to me). I am doing this project with a friend of mine, Joe Sauntry who is recording, mixing and mastering my CD. Joe also does the drum programming for my songs.

I have written all my songs myself and arranged the instruments with the help from Joe with the drums and with some additional guitar parts.

My goal with this project is to have a complete CD for my own and then I will try and market locally and beyond. Proceeds from sales of the CD will go to the Crohns and Colitis Foundation, a chartity I am very close to since I do suffer from Crohns.

Brendon John Sturgeon - lead and backing vocals, lead and rythym guitar, acoustic guitar , bass, piano
